# Surface Scarifiers

The Lute Scarifier is an all-aluminum combination tool for scarifying, leveling and removing loose granules. It is strong and sturdy, yet light enough to use all day. This tool is also excellent for spreading new material during top-dressing. The concave shape of the 30" wide blade allows the tool to "float" along the surface, without grabbing or digging in. Two sizes are available.

## Features Include:

- All Aluminum Alloy
- Light weight
- 2 tools in one
- 2 sizes to choose from

### Specifications for 30"
